DETAILED ACTION

Response to Amendment

1. Applicant's amendment and remarks filed on 27 January 2005 have been entered.

Allowable Subject Matter

2. Claims 1, 3, 5, 7, 8, 15, and 17 are allowed.
3. The following is an examiner's statement of reasons for allowance: Applicant has canceled claim 2 incorporating its allowable subject matter into independent claim 1, as suggested by the Examiner in the Final Rejection mailed on 27 July 2004.
4. Thus, the instant application is now in condition for allowance since, regarding amended independent claim 1, the prior art of record neither shows or suggests an arc tube comprising, in addition to other limitations of the claim, a ratio A/B of a width A and thickness B in a pinch seal portion of the arc tube being $1.8 \leq A/B \leq 2.8$.
5. The subject arc tube structure described above is provided for effectively suppressing the generation of a leakage due to the peeling of a molybdenum foil, thereby prolonging the lifetime of the arc tube. Due to their dependency upon claim 2, claims 4, 6, and 16 are also allowable. The design is new and unique to the art.
6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
